Ahoy! Knowledge ahead! Games, Puzzles & Toys

Captain Smart is a series of captivating games, puzzles and toys that support child development through creative play, tailored to address the needs of children from birth to 11 years of age.

All the products support the development of key abilities, such as concentration, observation, memory, creativity and logical thinking.

On the boxes of Captain Smart products, you will find a set of icons depicting the key skills. The icons allow parents and educators to quickly identify which practical skills the child can gain while playing with the chosen product.

Take this fascinating journey with us and learn about the world with Captain Smart!

FUN

Captain Smart boosts children's imagination and creativity while creating opportunities for family members to spend quality time together.

QUALITY

Captain Smart educational games are created in cooperation with teachers, psychologists and talented graphic artists. They are produced in Poland and guarantee high quality and child safety.

LEARNING

Absorbing games and fascinating puzzles from the Captain Smart series help children master logical thinking, learn English and expand their knowledge of the world.

DEVELOPMENT

Captain Smart supports children at every stage of their natural development, taking into account their individual needs.

Number of pages: 24 & 48 pp

Contents: workbook

In Coded Tower players work together and program the wizard's moves to collect the treasures hidden in the castle. Using sequences and algorithms, magic doors and moveable rooms, they try to outsmart the ghost and become coding masters.

AGE
5+

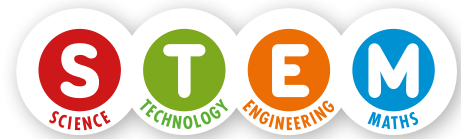

Coded Tower

Box size: 21,5 x 21,5 cm

Number of players: 1-4

Playing time: 10-30 min.

Contents: manual, 6 game boards, 12 tokens, wooden wizard pawn, 24 cards

AGE
8+

Cosmic Coding

Box size: 24,5 x 25 cm

Number of players: 2-4

Playing time: 20-45 min.

Contents: manual, game board, 72 tokens, pawns, puzzle pieces

Cosmic Coding is a cosmic journey in which the players become spacecraft navigators. Through coding, they create routes to get control over interstellar bases. While carrying out their mission, children learn the basics of coding: making sequences and conditions. They develop logical thinking and creativity, as well as practising concentration skills. Avoiding cosmic obstacles and blocking other players offer children a way to practise strategic thinking.
